I felt like Pharrell Williams
singing "HAPPY" on top
of the statue of liberty.

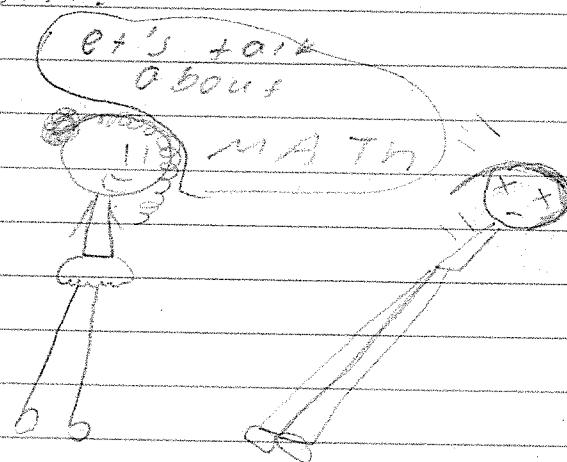

I could just jump all over
the classroom, I was saved
by the bell or Julie sternberg.

I hate math. But I was saved.
I will pass out if I hear
the word math again. I really
will.

I'm good at math. I don't know
why I hate it. Julie should
be called super Julie.

Thanks

How I felt when I walked into the classroom after recess was aggravated because me and my friends were suppose to play a game, until one of my friends wanted to show my other friend something and took forever to show her so we weren't able to ~~to~~ play or do anything at all at ~~recess~~ recess. But we also didn't get to ~~to~~ play a game because our teacher came early to pic us up.

So I was really furious at my friend ~~because~~ because almost everytime we go to recess we just walk around and talk and sometimes that can be a little bit boring,

So I was trying to see if we could play a fun game to get us nice and cheerful. Also I had also

(2)

Felt tired because I had went to sleep late. So since I was tired I was in a kinda grouchy mood so I wanted me and my friends to play a ~~game~~ game so that if ~~we~~ we were tired or bored we could do something active to make us feel better. But anyway that's how I felt after recess.

I was so excited when I was

so that made me tired. So when
I came in the classroom
I was tired, happy, sleep, and
thirsty. I wanted water so
bad. When I got the water I
was happy. But the tired still
impacted me. Now I'm happy

When I walked into the class room I felt tired but excited. Playing outside and sitting in the hot sun made me feel tired. Knowing that the people from voices were coming made me feel excited. After Julie started talking about her background story about writing and reading, I felt more engaged in the stories she was telling us. After she started talking I felt even more excited. Now I feel like jumping out of my seat because the stories were so funny and I can relate to them.

But now i was wasting energy for a good reason, the white power. But i was going inside i felt like i came out a bed, But i did not sleep good because i sleep, woke up, sleep, wake up, it never stop, so now i feel like when i get home i sleep.

When I came in the class I felt tired because I was playing to much in the playground. When I came in the class I was also exiting because before I went to lunch I heard that someone was going to come in class to teach us something. When I came in the class then I noticed that there where the same people that came into our class last time. I was exiting to see them back because they were the people from the six word memoir.

The way that I felt was tierd also I felt like my throat was dry. I Also felt happy that there was an arthur coming to our class to talk to us about her books and her work. I felt that way because I am going to learn about a new arthur.

Also I was going to get more information about A Book that I never read and heard about. I was also excited because I was going to learn about her life and how she wanted to write her stories. I also was amazed that she told us how she got her ideas and what she used to do when she never liked to write.

Also I was happy when I came into the class because I was so happy to see how she looked. I was also

happy that I learned ~~about~~ about her family and how she has 2 kids one is a teenager and how she has a husband.

How I felt about going to the classroom was excited and happy because I remembered the last time guest came I had a good time, so I figured that I would a good time. I also felt excited and happy because I like to read and my teacher said that a author was coming so I would like to read the author book and he or she name because when I go to the library I could check out the book so I can read it. I also felt excited and happy when I came to the classroom because I love when authors come in a share there story how they became a author and to know what was the reason why you had wrote that book? I also felt excited and happy because I want to know what's the job you do and to see if it's interesting because maybe when I grow up I can do the same thing you do because you have inspired me.

The way I felt when I walked in the classroom and saw 2 people and an author I was really surprised because the outside of me I felt happy and in the inside I felt joyful, and thankful too. I felt joyful and thankful because I really learn from an author and how they felt for being an author too authors are great because they write books like train book, fairy tale book and poetry books too.

[REDACTED] felt

I was sleepy when I walked in and sad at the same time because me and my best friends wasn't friends anymore. I lost 2 of my bestest friends [REDACTED] and [REDACTED]. I don't know how to make them my friends. I felt like this because I always had them in my life even though we went thought obstructions we faced them even though we was mad at each other we got into argument because of me. I feel so sorry about not being professional about stuff. Is that when I get into arguments I don't control myself like my teacher Ms. Mann always says "Control Your Self". It was kinda hard to say sorry cause they wouldn't talk or listening to me. It's hard to talk to people that think you lie to them a lot. But it's harder and harder to talk to them.

Don't
talk to
me

The way I felt after
I came to the classroom
was tired and sad as well
I felt tired because I was
just using my ipod and listening
to music and playing games as
well. I was also sad because
since I was outside I was sad
because I don't see my dad
~~until~~ until tomorrow because he
helps old people and take care
of them. So he stays and stays
the night and day as well.

He leaves on Friday and comes back
at 9:00 or 10:00 on ~~Tuesday~~ Tuesday.
But ~~he~~ made a change of
plans and is coming Today to
be ~~with~~ with me and mom

also my brother.

When I first walked in I was happy, but at the same time I was scared because I wanted to see our new guest name Julie Sternberg. I was scared because I was playing around with my friends at recess, I was running all over the place. But it was really fun. I was also happy because I wanted to see our guest. When I saw Julie I wanted to just hear her talk about her life. Also I had two feelings at the same time. But I was really scared and happy I would like to get the chance to read Ms. Julie's books.

I felt tired and sleepy and kind of mad. First, I was tired because I was playing outside and because I was running a lot. Also I felt sleepy because I didn't get too much sleep last night and I'm mad now because one of my best friends kept following me around the playground and I don't like followers. So now I'm not her friend anymore. But I'm happy right now because we have three wonderful visitors and I would like for them to stay a little longer because they made my day!

best friend (not anymore)

"Wait!"

"Why!"

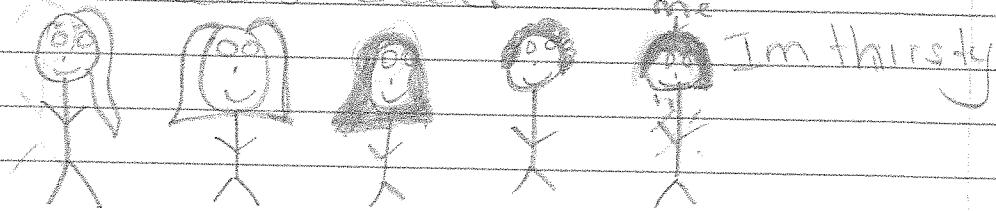

"Stop following me"

"I'm not your friend anymore"

J'Kai

When I walked in the Classroom
I was tired and Sweaty.
I was prepared for Ms Julie
Sternberg to teach me about
Voices. But before all of
that I was so eager
for Water. I really was
so interested for Ms Julie
to teach me. I was coming
from recess dead.

I was still happy because
I was going to be able
to meet Ms Julie and look
at her 3 great books. Her
book's teaches you a lesson.
Like Carrot juice on a
cupcake. That book teaches
that never treat your friends
mean.
